

ABOUT BLYNK

Our aim at Blynk, first and foremost, is to raise awareness about how screens affect your eyes. So even if you're not a fan of this software we hope that downloading it has got you thinking about how screens can permanently damage your eyes, because they really can.

We would also like to be clear that using this software is not in any way a substitute for a full and comprehensive eye exam carried out by a qualified optometrist. So please look after your eyes, they really are very special... an amazing charity that helps change people's lives with the gift of vision. If you would like to learn more about the work done by Blynk Tech and Vision Aid Overseas please hit the button below.

NOT JUST YOUR EYES

Blynk cares about everyone's eyes, which is why we have not only created this free eye care software but also formed a closed partnership with Vision Aid Overseas, an amazing charity that help change people's lives with the gif of vision.
